 pragati.688643@gmail.com

Summary

- Highly motivated and accomplished professional with over a decade of expertise in the fields of Computer Science and Mathematics within the realm of education.
- Proficient in mathematics, physics, chemistry, and computer science, with a strong foundation in statistical analysis and machine learning.
- Skilled in data wrangling, data visualization, and communication, demonstrated by authoring a best-selling mathematics book ("Bible to Basic Mathematics").
- Data Analysis & Statistics: Strong foundation in statistical concepts, hypothesis testing, and experimental design.
- Programming & Modeling: Proficient in Python and familiar with machine learning algorithms.
- Learning & Growth: Dedicated to continuous learning, as demonstrated by academic certifications and domain expertise.
- Adaptability & Teamwork: Thrives in collaborative environments and readily adjusts to new situations.

Technical Skills

Deep Learning in Python	
Python Programming	
Data Analytics in Python	
Natural Language Processing	
Machine Learning in Python	
My SQL (DBMS)	
Engineering Mathematics	
C, C++	
Block-Chain Technology	

- **M.Tech (Hons.) in Computer Science (2013 – 15)** – 82.4%
Dr. C.V. Raman University, Bilaspur, (Chhattisgarh)
- **B.E. in Computer Technology (2008 – 12)** – 66.22%
Nagpur University, PCE, Nagpur, (Maharashtra)
- **UGC-NET qualified for Assistant-Professor in Computer Science and Applications (Dec-2019)**
- **GATE-2024 qualified in Data Science and Artificial Intelligence**

 Work History

Mar 2024 –
Current

Assistant Professor (Department: Data Science)
Raisoni College, Nagpur

- Educating diverse courses including Machine Learning, Deep Learning, Advanced Data Analytics, and Design and Analysis of Algorithms, ensuring students receive a comprehensive understanding of key concepts and methodologies in data science.
- Developing and delivering engaging curriculum content tailored to the needs of students, utilizing practical examples to facilitate deeper comprehension and application of theoretical principles.
- Providing mentorship and guidance to students through regular feedback sessions, cultivating a stimulating learning environment that promotes critical thinking and problem-solving skills.

Jul 2013 – Feb
2024

Educator | Self Employed
Pragati Coaching Classes

- Successfully taught students from various educational backgrounds and standards, including schools and colleges, for over 10 years, demonstrating adaptability and proficiency in delivering tailored educational content.
- Developed comprehensive lesson plans and instructional materials for subjects spanning Mathematics, Physics, Chemistry, and Computer Science, catering to diverse learning styles and academic requirements.
- Employed innovative teaching methodologies and technology-enhanced learning tools to foster student engagement and

comprehension, resulting in consistently high levels of student satisfaction and academic achievement.

- Established a reputation for excellence in education, evidenced by positive feedback from students, parents, and educational institutions, as well as a track record of consistently producing top-performing students in standardized examinations and competitive tests.

Achievements

- Authored & Self Published the book "**Bible to Basic Mathematics**" which has achieved bestseller status on Amazon and garnered widespread recognition among educational institutions nationwide, underscoring its impact and relevance in academic circles.
- Sainik School Imphal tasked students with writing about the aforementioned book in June 2022.

**Apr 2021 – Mar
2023**

Internship Program in Data Science Domain ThoughtQuad Pvt Ltd (IT Services & Consulting), Pune

- Developed and implemented a Deep Convolutional Neural Network (CNN) for automated detection and diagnosis of seizures using EEG signals, resulting in a publication in ELSEVIER Volume 100, with specific details available on pages 270-278. Utilized Google Colab for seamless collaboration and efficient model training.
- Designed and trained Artificial Neural Network (ANN) and CNN models for classification tasks using COVID-19 datasets, demonstrating proficiency in data preprocessing, feature extraction, and model evaluation. Implemented solutions in Google Colab to leverage cloud computing resources effectively.
- Utilized Auto-Encoder techniques to create a model for feature extraction and reconstruction on the CIFAR-10 dataset, showcasing expertise in unsupervised learning and dimensionality reduction methods. Experimented with various architectures and hyperparameters to optimize model performance and accuracy.
- Collaborated with team members to brainstorm ideas, troubleshoot issues, and iterate on model designs, fostering a innovative environment conducive to learning and professional growth.

Accomplishments

Mar 2024	Qualified GATE in Data Science and Artificial Intelligence
Oct 2023	NPTEL-SWAYAM Domain Scholar in Data Science
Dec 2023	NPTEL Discipline Star in Computer Science & Engineering
2021	Qualified GATE in Computer Science
2019	Qualified UGC-NET for Assistant Professor

Technical Certifications

Dec 2025	FDP on "Next-Gen Intelligence: HPC, Applied AI, and Data Science"
Dec 2025	FDP on "NEP 2020 Orientation and Sensitization Programme" under MMTC
Nov 2025	Patent on "AI Driven Robot Controlling Device"
April 2025	Blockchain and its Applications issued by NPTEL
March 2025	Patent on "AI Based Image Recognition Device"
Jan 2025	FDP on "NLP Trends and Applications"
Nov 2024	FDP on "Challenges of Information Security and Digital Forensics"
Nov 2024	FDP on "AI and Digital Technologies for Health Care"
Oct 2023	Learning Analytics Tools issued by NPTEL
Oct 2023	Introduction to Machine Learning issued by NPTEL
Apr 2023	Natural Language Processing issued by NPTEL
Apr 2023	Data Analytics with Python issued by NPTEL
Oct 2022	Python issued by NPTEL
Oct 2022	Deep Learning issued by NPTEL

Research Work (M.Tech)

- Classification of Diabetes Mellitus Using Machine Learning Techniques, International Journal of Engineering and Applied Sciences (IJEAS) ISSN: 2394-3661, Volume-2, Issue-5, May 2015, pp.145-148.
- A brief survey on the techniques used for the diagnosis of Diabetes Mellitus, International Research Journal of Engineering and Technology (IRJET) ISSN: 2395-0056, Volume: 02 Issue: 03, June-2015 pp. 1039-1043.
