

Harshad Mehta Inspired Investing Playbook (Legal & Practical)

Crypto + Indian Markets | Pravesh A Agrawal

Section 1: 10 Legal Lessons (0.1% Thinking)

- 1 Follow liquidity: Markets move based on money flow, not news.
- 2 Ride strong trends instead of fighting them.
- 3 Concentration builds wealth; avoid over-diversification.
- 4 Identify opportunities before the crowd.
- 5 Build conviction early and scale positions.
- 6 Understand market psychology: fear vs greed cycles.
- 7 Use momentum intelligently, not blindly.
- 8 Leverage public information with better interpretation.
- 9 Take big bets only when conviction is high.
- 10 Timing matters more than idea.

What NOT to Copy

- 1 Market manipulation
- 2 Illegal leverage or misuse of funds
- 3 System exploitation

Section 2: Harshad-Style Bets (Crypto 2026)

Narrative	Assets	Logic
AI + Compute	RNDR, FET	Institutional + real use case
RWA	ONDO	Early stage institutional narrative
Infra/DePIN	AR, FIL	Backbone of Web3 ecosystem

Crypto Allocation Strategy

- 1 35% RNDR + FET
- 2 25% ONDO
- 3 20% AR
- 4 20% FIL

Section 3: Harshad-Style Bets (Indian Stocks 2026)

Sector	Stock	Logic
Infrastructure	L&T	Execution + Govt push
Power	NTPC	Energy demand growth
Defense	BEL	Strong order book
Banking	SBI	Balance sheet improvement
Capital Goods	Siemens	Industrial cycle

Stock Allocation Strategy

- 1 30% L&T;
- 2 20% NTPC
- 3 20% BEL
- 4 15% SBI
- 5 15% Siemens

Execution Strategy (Critical)

- 1 Enter in 3 phases: 30% initial, 30% dip, 40% confirmation
- 2 Avoid chasing rallies
- 3 Track narratives and sector trends weekly
- 4 Exit during hype (crypto) or overvaluation (stocks)

Final Insight

Big money is made by seeing early, betting with conviction, and holding patiently. Avoid noise and focus on capital flow, timing, and positioning.
